MEDICAL MATERIEL

Army and Air Force Exchange Services (AAFES) and International Merchant Purchase Authorization Card (IMPAC)

A 5 Jan 96 letter, subject Mandatory Use of IMPAC Cards, to all major command (MAJCOM) contracting offices from the Secretary of the Air Force Acquisition and Contracting Office (SAF/AQCO) immediately removed the restriction on AAFES as a source of appropriated fund purchases in the continental United States (CONUS). Organizations no longer have an AAFES account and will use the IMPAC card for purchases. Treat AAFES as any other local source of supply when purchasing items under the \$2,500 micropurchase threshold. Coordinate with the base contracting office prior to including AAFES as a source of supply. (HQ AFMSA/SGSLP, Capt Paul Martin, DSN 240-4126)

Standard Materiel Accounting System (SMAS) Products - Daily Transaction History, SH118-SO0

Attachment 4 includes information on the SMAS Product, "Daily Transaction History, SH118-SO0." This listing is a valuable tool for the logistician during research efforts. Learning to read and interpret this listing is important. Please contact us if you have any questions. (AFMLO/FOCF, Mr. Dale Lyons, DSN 343-4017)

Career Development Course (CDC) Shipping List Changes for 4A151

Due to printing and packaging procedures at the Extension Course Institute (ECI), shipping list changes (errata, supplements, unit review exercises (URE), deletions, etc.) not included in CDC packages at the time of enrollment, are not provided to students. For example, if text is added or deleted due to revision of technical references, (AFMAN 23-110, AFM 167-230, System Releases), course data must be adjusted accordingly. This problem can cause enrollees to study information which is changing or has been changed.

Due to printing costs, ECI does not allow CDC writers to update courses pending deactivation, such as the old 91550 course. The only changes to deactivated courses are deletions of text and related questions and answers, including URE items.

To ensure you have the most current changes to the 91550 or 4A151 course, contact MSgt Luther Ponder at DSN 736-6915, or e-mail to ponderl@win.atn.af.mil. Please notify us of any problem detected in the course. Provide the following information with your request: name, rank, course number (91550 or 4A151) e-mail address, FAX number, mailing address, enrollment status (5 level upgrade or WAPS study), duty status (active duty, reserve, or guard). Mailing address is: 882nd Training Support Squadron, 939 Missile Road, Sheppard AFB TX 76311-2260. (384th Training Squadron, MSgt Luther Ponder, DSN 736-6915)

Scope Shield Radios

Did you know that the program office at Hanscom AFB MA publishes a newsletter concerning Scope

Shield radios?

Initial distribution is made to the MAJCOM or MAJCOM representative. If your MAJCOM wants to be added to the mailing list, contact:

Nicholas Pappas, Editor
DSN: 478-6085 or (617) 377-6085
Fax: DSN 478-7981
E-Mail: PappasN@radium-vs1.hanscom.af.mil

There is a wealth of information in these newsletters. Some excerpts are provided below.

Question: Is it possible to get a copy of the purchase order for verification against what was received?

Answer: No; however, a DoD Single Line Item Release/Receipt Document (DD Form 1348-1), should accompany the order. The contractor provides a Material Inspection and Receiving Report (DD Form 250), with the order, but the entire order is sent to the Sacramento Depot where items are separated for over 400 customers. Bases should receive a letter notifying what items to expect. In other words, they compare authorizations against items actually received. The Scope Shield II radio system consists of several components. Some War Reserve Materiel (WRM) programs have additional provisions based upon the size, and scope, of the Table of Allowance (TA). For example, TA 896A (Air Transportable Hospital) contains items such as tactical repeaters, base station, and vehicle adapters. One component of the system which remains constant, however, is the hand-held radio (AN/PRC-139, NSN 5820-01-369-6046ZX).

The AFMLL is a specialized newsletter published by the Air Force Medical Logistics Office. The AFMLL is published every two weeks to provide timely medical materiel logistics data to Air Force medical activities worldwide. Our mission is to ensure all Air Force medical facilities receive the highest level of medical logistics support. In that regard, we solicit your articles for inclusion in the AFMLL to relay information for use by other activities. For additional information concerning this publication, call (301) 619-4158/DSN 343-4158 or write to the Air Force Medical Logistics Office, ATTN: FOA, Building 1423, Fort Detrick, Frederick, Maryland 21702-5006. Articles may be data faxed to (301) 619-2557 or DSN 343-2557.

The use of a name of any specific manufacturer, commercial product, commodity, or service in this publication does not imply endorsement by the Air Force.

Matters requiring AFMLO action after normal duty hours may be referred to the AFMLO Staff Duty Officer. The Staff Duty Officer may be reached at DSN 343-2400 or (301) 619-2400 between the hours of 1630 and 0700 weekdays, and anytime on weekends and holidays.

Question: Will the commercial maintenance and operator instruction manuals accompany the order?

Answer: No, these items can be ordered through your technical library. In addition, the newsletter provides information concerning training aids, as well as a point of contact:

Dennis Surace
DSN 795-7439 or (717) 895-7439
Fax DSN 795-6106
Joint Visual Information Center
Attn: SAM-OPV-JT-AS
Building 3, Bay 3
11 Hap Arnold Blvd.
Tobyhanna PA 18466-5102

Ask for Scope Shield II VHS tapes, PIN number 611901. These training tapes cover operator and maintenance tasks and were made during contractor-conducted training courses.

Question: What about Scope Shield II Technical Orders (T.O.s)?

Answer: Please make arrangements with your medical treatment facility (MTF) publications manager to obtain a copy of these T.O.s. If your stock record account supports an off-site detachment with a WRM project that includes the Scope Shield II radio components, it may be beneficial to obtain an additional copy for them. The Scope Shield II T.O.s consist of the following:

T.O. 31R2-2PRC139-1

Operational and Maintenance Instructions with Illustrated Parts Breakout (IPB), Radio Set AN/PRC-139(C) Hand-held Radio, including Receiver-Transmitter Set, Radio RT-1695/TRC-199, Receiver-Transmitter Set, Radio RT-1696/U(C), Programmer Unit, Frequency Radio MX-1153/U (Frequency Fill Device), Battery Reconditioner.

T.O. 31R2-4-1085-1

Operation and Maintenance Instructions with IPB, Adapter Group, Radio OF-228/U (Vehicle Adapter).

T.O. 31R2-2TRC199-1

Operation and Maintenance Instructions with IPB, Radio Set, AN/TRC-199 (Tactical Repeater).

T.O. 31R2-2GRC238-1

Operation and Maintenance Instructions with IPB, Radio Set, AN/GRC-238 (Base Station).

T.O. 31R2-2PRC139-06

Work Unit Code Manual.

Question: Who will perform system checks, calibration, and preventive maintenance on the major components of the Scope Shield II radios (i.e., Base Station, Hand-held radios)?

Answer: There are two levels of potential repair for the Scope Shield radio equipment components; organizational and depot. In accordance with guidance provided by HQ AF Communications Command in May 1993, maintenance of the system equipment components will be accomplished by Ground Radio Communications Specialists. It is important to contact your base Land Mobile Radio (LMR) manager to establish an initial and periodic maintenance requirement. He/she is the true expert and should be able to resolve any technical problems. For items which are beyond economical repair, please contact AFMLO/FOCW to request disposition instructions.

Question: Are COMSEC keys shipped with the radios?

Answer: No, establish a communications security (COMSEC) account with your COMSEC Control Officer. He/she will issue the keys.

The delivery date for the Scope Shield radios is scheduled for the end of May 96. The Scope Shield radios should begin arriving in Sacramento the end of March, and begin arriving at bases the end of May.

Send a copy of the receiving report (i.e., DD Form 1348-1) to AFMLO/FOCW, as specified in AFMAN 23-110, Vol 5, Chap 15.14, for items received. Please contact us if you have additional questions. (AFMLO/FOCW, Ms. Dianna Wilson, DSN 343-7157)

Prime Vendor

Question: When calling the EDS help desk, I received a recorded message stating the number has been disconnected. What is the new number?

Answer: The telephone number for the EDS help desk is 800-555-7691. You may use this number whenever you have a problem or question concerning your Prime Vendor Interface (PVI) or the Product and Price Comparison (PPC) Tool. (AFMLO/FOCO, TSgt Bryan Matthews, DSN 343-4172)
